ARCHIBALD LAKE ASSOCIATION	Archibald Lake EWM Treatment & Control Project	Oconto	NE	Brenda L. Nordin, 920- 662-5435	\$20,000.00	\$8,643.00	The Archibald Lake Association proposes to control Eurasian water-milfoil (EWM) in Archibald Lake by implementing control measures during the period 2009 – 2012. The project elements and deliverables are specified in the Archibald Lake Association's Aquatic Invasive Species Control Grant application, dated August 8, 2009. The project includes conducting pre- and post-treatment surveys and mapping the extent of EWM, including a full lake rake point index survey during EWM peak growing seasons June – August, controlling EWM with aquatic herbicide treatments, continuing and expanding the current CBCW program, continuing to monitor Archibald for invasive species using approved CLMN AIS monitoring protocols, and continuing to take an active role in educating all who use the lake. Annual progress reports and a final report summarizing the three-year project will be provided to DNR. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. If the consultant is to provide the final report, it is recommended that the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR will be provided both paper and electronic PDF copies of the final report along with, or prior to, submission of grantee's final payment request.

BEECHER LAKE PROTECTION & REHAB DISTRICT	Beecher Lake EWM Control Project	Marinette	NE	Brenda L. Nordin, 920- 662-5435	\$22,566.00	\$7,522.00	<p>The Beecher Lake District (the District) proposes to selectively control Eurasian water-milfoil (EWM) through chemical treatment, winter drawdowns, and preventative measures in Beecher Lake and Upper Lake during the period 2010 - 2013. The project elements and deliverables are specified in the District's Aquatic Invasive Species Control Grant Application, dated August, 2009. The project includes conducting annual pre and post-treatment surveys to monitor the extent of EWM and efficacy of treatments, treating EWM infested areas with aquatic herbicides, creating GIS maps of the treated areas to guide future applications, and conducting winter drawdowns to examine the effectiveness of such actions as a control measure. Additional activities under the project include a survey of Beecher Lake for evidence of the native milfoil weevil and if present, its potential as a biological control agent will be evaluated. The District will also continue education and prevention activities to prevent further AIS infestations, participation in the Citizen Lake Monitoring Network (CLMN) AIS monitoring, and conducting watercraft inspections. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database and CLMN AIS data will be entered into the Surface Water Integrated Management System. Annual progress reports and a final report summarizing the four-year project will be provided to DNR.</p> <p>If a consultant is to provide the final report, it is recommended that the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on the report's adequacy prior to making final payment to the consultant. DNR will be provided with both paper and electronic PDF copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

CALLAHAN LAKE PROTECTIVE ASSOCIATION, INC	Callahan/Mud Lakes Eurasian Watermilfoil Rapid Response Project	Sawyer	NO	James Kreitlow, 715-365-8947	\$12,180.75	\$4,060.25	<p>The Callahan Lake Protective Association in cooperation with Sawyer Co. Land Conservation Dept. will conduct an early season herbicide treatment on ~ 20 acres of Eurasian Water Milfoil (EWM).</p> <p>Project goals include: 1) An early season herbicide treatment on ~ 20 acres of EWM in high traffic areas in Callahan Lake/Mud to control the spread; 2) Placement of educational signs at all boat landings; 3) Monitor the EWM throughout the year to determine efficacy of the herbicide treatment and to continue the mapping of EWM; 4) Educate lake association members about EWM, herbicide treatments, other control measures through newsletter articles and trainings.</p> <p>Project deliverables include: 1) The outcome of the treatment described should show evidence of declining EWM populations in treated areas with no negative effect on native aquatic vegetation and animal species; 2) EWM will be mapped prior to treatment and after treatment. The lake will be surveyed for EWM at one month and three month intervals after the herbicide treatment to determine efficacy of the treatment and regrowth.</p> <p>Specific conditions for this Project: 1) The Department of Natural Resources recommends that the lake association apply for an AIS education, prevention and planning grant to begin working on a future lake management plan, or an Aquatic plant management plan focusing on future management of EWM. This would include a more detailed evaluation of the aquatic plant community (pre and post monitoring point intercept plant survey). Note: The lake association has obtained a grant and is working on a APM plan/plant survey. 2) The WDNR will be provided electronic and hard copies of all data and or reports/plans generated as a result of this project. 3) Implement the pre and post monitoring to program to determine if chemical treatment is working (EWM control) and if the native plants are responding.</p>

CALUMET COUNTY	Calumet County AIS Coordinator Project	Calumet	NE	Brenda L. Nordin, 920- 662-5435	\$100,904.50	\$60,161.15	<p>The Calumet County Planning Department proposes to conduct an aquatic invasive species (AIS) education, prevention, planning and control project during the period of October 2009 to December 2012. The project elements and deliverables are specified in the Calumet County Planning Department's Aquatic Invasive Species (AIS) Control grant application, dated July 22, 2009. The project includes hiring a coordinator; improve coordinated county wide strategy for the prevention and control of AIS; notify AIS state coordinator of new AIS infestations; prioritize eradication efforts and work with units of government; assist government agencies in finding grants to help finance eradication; track AIS by using GIS technology; expand countywide database of partners; continue CBCW program; educational outreach including press releases, electronic news letters, volunteer field days with control demos and field work, AIS meetings, training for local and county road crews; distribution of brochures and "tool box" usage; continually update the website identifying participation events for the public and AIS in Calumet county.</p> <p>The grantee will provide the DNR AIS Coordinator with an annual progress report and a final report for comment on report adequacy prior to requesting reimbursement. DNR to receive both paper and electronic .pdf copies of the reports along with, or prior to, submission of grantee's final payment request. Watercraft inspection records are to be entered into the State's online Watercraft Inspection Database.</p>

CITY OF PESHTIGO	Peshtigo Flowage AIS Education, Planning & Prevention Project	Marinette	NE	Brenda L. Nordin, 920-662-5435	\$9,180.00	\$3,060.00	The City of Peshtigo proposes to develop a Comprehensive Aquatic Plant Management (APM) by December 2011, which will focus on native plant protection and prevention, and control of aquatic invasive species (AIS). The project elements and deliverables are specified in the City of Peshtigo's Aquatic Invasive Species Control Grant application, dated July 22, 2009. The project will; conduct a point/intercept survey of the aquatic plant community in Peshtigo Flowage using WDNR aquatic plant survey methodology; determine the extent, distribution and density of Eurasian water-milfoil and any other AIS; prepare and develop an APM Plan consistent with DNR guidelines, including an AIS prevention and control plan; educate lake users of native plant protection and AIS prevention and control measures; and implement the "Clean Boats, Clean Waters" watercraft inspection program. Watercraft inspectors will attend a current "Clean Boats, Clean Waters" training session sponsored by UW-Extension staff. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. The final report will include the Peshtigo Flowage's Aquatic Plant Management Plan that meets the requirements of Wisconsin Chapter NR198.43(1). If consultant is to provide the final report, it is recommended the Grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.

DANE COUNTY	AIS Prevention & Control Plan Implementation-Dane Co	Dane	SC	Susan Graham, 608-275-3329	\$100,000.00	\$56,600.00	Dane County will implement their AIS plan by hiring a coordinator to implement the plan to reduce the spread of invasives already present, and prevent introduction of new invasive species. Priorities will be directed partly by an independent task force. Annual reports will share the progress in completing the management actions, and more frequent updates will be featured on their website, <a href="http://www.danewaters.com">www.danewaters.com</a> . A final report submitted in electronic .pdf and paper format will summarize all efforts.
DOOR COUNTY	Door County AIS Control & Education Project	Door	NE	Brenda L. Nordin, 920-662-5435	\$70,472.00	\$70,109.10	<p>The Door County Soil and Water conservation Department proposes to conduct an aquatic invasive species (AIS) education, prevention, planning and control project in partnership with the Door county Invasive Species Team during the period of October 2009 to December 2011. The project elements and deliverables are specified in the Door County Soil and Water Conservation Department's Aquatic Invasive Species Control grant application, dated July 30, 2009. The project includes hiring a coordinator; increase the Landscape of Distinction partner roles and responsibilities; organize and implement (AIS) control techniques training sessions annually; organize AIS work parties throughout the county; log volunteer hours for AIS work throughout county; use GIS technology to map AIS throughout county and where control efforts have taken place; maintain DCIST website with invasive species information; expand CBCW/Watercraft inspection program through local schools, DNR/Work Force development Program, and Fishing Tournaments; increase the use of the DCIST equipment loan program.</p> <p>The grantee will provide the DNR AIS Coordinator with a draft of an annual report and final report for comment on report adequacy prior to requesting reimbursement. DNR to receive both paper and electronic .pdf copies of the reports along with, or prior to, submission of grantee's final payment request. Watercraft inspection records are to be entered into the State's online Watercraft Inspection Database.</p>

LAKE KEESUS MANAGEMENT DISTRICT	Lake Keesus CBCW	Waukesha	SE	Heidi Bunk, 262-574-2130	\$3,000.00	\$1,000.00	The Lake Keesus Lake Management District wishes to implement a one year Clean Boats, Clean Waters program in 2010. The LKMD would hire a watercraft inspector to staff the Lake Keesus boat launch for approximately 333 hours. The inspector would staff the launch during busy times between Memorial Day and Labor Day, primarily on the weekends. The inspector would work approximately 25 to 30 hours per week. The project deliverables include 1) entry of all watercraft inspection data into the statewide database (SWIMS) and 2) a short report summarizing how the summer inspections fared (how many boats inspected, any difficulties encountered, how many hours worked and a log of the dates/times worked).
LAKE WISSOTA IMPROVEMENT AND PROTECTION ASSO	Wissota EWM '09	Chippewa	WC	Buzz Sorge, 715-839-3794	\$9,009.00	\$3,003.00	The Lake Wissota Improvement and Protection Association proposes to continue with its effort to control pioneer infestations of Eurasian Watermilfoil at six sites on Lake Wissota in Chippewa County. Major project elements to include: 1) Contract for chemical treatment of 20 approx. acres, 2) Volunteer AIS monitoring and project coordination.
LEGEND LAKE P & R DISTRICT	Legend Lake Permit Fee Reimbursement	Menominee	NE	Mary Gansberg, 920-662-5489	\$1,270.00	\$0.00	Permit fee reimbursement for the maintenance and containment of aquatic invasive species on Legend Lake.

POLK COUNTY	Polk & Burnett Counties Japanese Knotweed Early Detection & Rapid Response Project 2009-2010	Polk	NO	Pamela Toshner, 715-635-4073	\$19,883.61	\$6,627.87	<p>Polk County Land and Water Resources Department in partnership with Burnett County Land and Water Conservation Department is sponsoring a multi-year early detection and response project that will monitor and manage pioneering populations of Japanese knotweed throughout the counties.</p> <p>Project activities include: 1) Community information and education specific to Japanese knotweed, including training volunteers on identification and control; 2) Identification, mapping, and management of pioneering colonies. Management may include multiple herbicide applications/methods and mowing; 3) Follow-up monitoring of managed sites, including treatment efficacy evaluation.</p> <p>Special condition: monitoring and treatment methods should be approved by the Department.</p> <p>Project deliverables include: annual progress reports of educational outreach/training, monitoring, and management activities. Final project report integrating the annual progress reports with evaluation results and any educational materials developed.</p> <p>This scope summarizes the project detail provided in the application and does not negate tasks/deliverables described therein. Data, records, reports, and education materials, including GIS-based maps and digital images, must be submitted to the Department in a format specified by the regional lake coordinator.</p>
ROCK RIVER COALITION, INC	Knotweed Eradication-Badfish Creek	Rock	SC	Susan Graham, 608-275-3329	\$3,257.00	\$5,120.00	<p>The Rock River Coalition (RRC) proposes control of a population of Japanese Knotweed which occupies the bank of Badfish Creek at the Riley Road bridge crossing in Rock County. The Friends of Badfish Creek, a chapter of the RRC, will do the work of purchasing all the initial supplies, precisely delineating the boundaries of the clones, knocking down the old stalks, and doing herbicide treatments, all with the help of many volunteers. An educational program will be presented, and educational signs will be posted at the site. The overall goal of this project is complete eradication of this species in and around the existing clones, which are mapped in the application.</p> <p>The deliverable for this grant will be a final report summarizing the work that was completed, dates of work, prompt treatment records for the permitted herbicide application, hours of volunteer time, turn-out at the educational program presented, and observed and photographed results of the control work. The report should include a concise set of photographs, including pre- and post- treatment shots, documentation of the work in progress and the restored condition. The report should also include a detailed map of the initial clones and the final area of knotweed population, if any.</p>

SPIDER CHAIN OF LAKES IMPROVEMENT ASSN	Spider Lake CLP Rapid Response	Sawyer	NO	James Kreitlow, 715-365-8947	\$5,000.00	\$1,920.00	<p>The Spider Chain of Lakes Association in cooperation with Sawyer County Land Conservation Department will conduct an early season herbicide treatment on 10 acres of Curly Leaf Pondweed (CLP). CLP was found in 2005 and has been monitored ever since. No treatment has occurred in the past, but now CLP is expanding into high traffic areas near resorts. It has now reached a level of concern.</p> <p>The project goals includes: 1) Early season herbicide treatment of ~ 10 acres of CLP in Big Spider Lake to control the spread; 2) Monitor the CLP throughout the year to determine efficacy of the herbicide treatment and to continue the mapping of CLP.</p> <p>Deliverables include: 1) The outcome of the treatment described should show evidence of declining CLP populations in treated areas and the response of native aquatic plants; 2) CLP will be mapped prior to treatment and after treatment. The lake will be surveyed for CLP in mid July through Mid August after the herbicide treatment to determine efficacy of the treatment and regrowth; 3) A map and a pre/post treatment report.</p> <p>Specific conditions: 1)The WDNR will be provided electronic and hard copies of all project data and or reports/plans generated; 2) Implement the pre and post treatment monitoring protocol (DNR May, 2007); 3) Summary report on the effectiveness of the treatment; 4) Obtain an APM permit prior to commencement of CLP treatment.</p>
SWAMP LOVERS FOUNDATION, INC.	Reed Canary Grass & Watercress Control - Black Earth Creek Unnamed Trib	Dane	SC	Susan Graham, 608-275-3329	\$20,000.00	\$6,667.00	<p>The Swamp Lover's Foundation of Cross Plains proposes to control small satellite clones of reed canary grass within a high quality sedge meadow and watercress in a small tributary of the Black Earth Creek on their property in Dane County. Their management plan has been reviewed and approved by Susan Graham and Brock Woods, and will fund the 2-year control project. They will write a progress report and a final report to share the results of this control effort.</p>

TOWN OF DELAVAN	Floating Yellow Heart- Geneva Landings	Walworth	SE	Heidi Bunk, 262-574-2130	\$20,000.00	\$13,638.68	This project is to stop the floating yellow heart that is currently in the two stormwater detention ponds located at Geneva Landings from spreading into Geneva Lake. The project will included dewatering the ponds to dry detention cell and running the water through Geofabric bags. Both ponds will be dredged to hardpan. Two adjacent holes will be dug to bury the dredged spoils. The two ponds will be lined with a 5 year warranty on the geomembrane. The two ponds will then be refilled with water to return the detention ponds to their original state. A final report will include a brief report that documents the steps required for this project, along with before, during and after photos of the project site.
TOWN OF DELAVAN	Phase II Floating Yellow Heart- Geneva Landings	Walworth	SE	Heidi Bunk, 262-574-2130	\$10,706.31	\$3,568.77	Phase II will complete AIRR-068-10 This project is to stop the floating yellow heart that is currently in the two stormwater detention ponds located at Geneva Landings from spreading into Geneva Lake. TRI-LAKES MANAGEMENT DISTRICT	Tri-Lakes CBCW, Water Quality	Adams	WC	Buzz Sorge, 715-839-3794	\$16,364.54	\$5,454.85	The Tri-Lakes Management District proposes to hire two interns to conduct Clean Boats, Clean Waters (CBCW) monitoring and outreach and water quality sampling on Arrowhead, Camelot and Sherwood lakes in Adams County. Major project elements to include: 1) Intern wages and benefits, 2) Per Diem allowances, 3) CBCW materials, 4) Sample materials and analysis.
UNIVERSITY OF WISCONSIN-MADISON	Planning, Monitoring & Expanding WI AIS Prevention Strategy Communication Efforts	Dane	SC	Susan Graham, 608-275-3329	\$124,513.00	\$41,624.00	The Board of Regents is sponsoring the Department of Life Sciences Communication to enhance current strategic communication efforts to prevent the spread of aquatic invasive species (AIS). Research methods will include two random polls, and working with numerous specific target groups, plan effective message campaigns. They will also work with key players to inform them about the issue of AIS, so that they in turn, can model for and inform transient boaters, the group most likely to transport AIS between lakes. Deliverables include: opinion data trends on AIS and VHS; evaluation report on current campaign efforts; outreach materials to be used with opinion leaders; guide for opinion leader-based campaign to be used by DNR and partners. These deliverables will compose a final report to be submitted in .pdf electronic and paper format. Project results will be shared via regular meetings with an AIS steering committee; UW Extension, DNR and LSC websites; Extension newsletter, conferences and peer reviewed publications.

WAUPACA CHAIN O'LAKES PUBLIC INLAND LAKE P&R	Waupaca Chain O'Lakes AIS Treatment & Education Project	Waupaca	NE	Brenda L. Nordin, 920-662-5435	\$63,835.01	\$63,835.01	The Waupaca Chain O' Lakes Protection & Rehab District (the District) proposes to control curly-leaf pondweed (CLP), Eurasian water-milfoil (EWM) through chemical treatment & preventative measures in the Waupaca Chain O' Lakes (the Chain) during the period 2010-14. Proposed purple loosestrife (PL) control will employ Galerucella spp. beetles as a biological control agent. The project elements & deliverables are specified in the District's AIS Control Grant Application, dated 7.28.09. The project includes conducting annual pre-treatment & post-treatment surveys to monitor the extent of CLP, EWM, & PL to determine efficacy of treatments, treating CLP & EWM infested areas with aquatic herbicides, & continuing education & prevention activities, including Citizen Lake Monitoring (CLMN), Clean Boats Clean Waters (CBCW), and native shoreline restoration. A report on AIS will be provided when docks, boats, & boat lifts are removed in the fall. All watercraft inspection data collected during CBCW & CLMN activities will be entered into the state's online Surface Water Integrated Management System. The Department requests that the CBCW coordinator for the District attend a CBCW training session within the next calendar year as a refresher to the protocol & introduction of any new invasive species that may have arrived after the coordinator was last trained. Annual progress reports & a final report summarizing the five year project will be provided to the Dept. If consultant is to provide the final report, it is recommended that the Grantee provide the Dept AIS Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. The Dept will be provided both paper & electronic PDF copies of the final report along with, or prior to, submission of grantee's final payment request. Any publications produced as part of the project will incorporate the "Stop Aquatic Hitchhikers!"™ brand.

WINNEBAGO LAKES COUNCIL, INC.	Winnebago Pool Lks AIS STrategic Planning Phase 2	Winnebago	NE	Brenda L. Nordin, 920-662-5435	\$67,509.00	\$29,492.00	<p>The Winnebago Lakes Council proposes to implement the comprehensive plan designed in phase I for preventing the spread of aquatic invasive species (AIS) into and from the Winnebago Pool (Lakes Winnebago, Butte des Morts, Winneconne and Poygan) during the period 2009-2010. The project elements and deliverables are specified in the Winnebago Lake Council's Aquatic Invasive Species grant application, dated January 30, 2009. The project includes; finalizing the regional AIS plan; continuing the "Clean Boats, Clean Waters" inspection program, including hiring an intern watercraft inspector, an intern coordinator and a project coordinator; and hosting a two day educational workshop aimed at local policy makers and waterfront property owners. Watercraft inspection records will be entered into the State's online Watercraft Inspection Database. Annual progress reports and a final report summarizing the two-year project will be provided to the DNR. If consultant is to provide the final report, it is recommended the grantee provide the DNR Aquatic Invasive Species Coordinator with a draft for comment on report adequacy prior to making final payment to the consultant. DNR to receive both paper and electronic .pdf copies of the final report along with, or prior to, submission of grantee's final payment request.</p>

Awarded between 01/04/2009  
and 01/04/2010
